

Patch handle bags

As one of our standard products, patch handle bags have been in supply for a long number of years. We offer them in LDPE, MDPE or HDPE, with three different styles of punch-out. Glued-on patch around punch-out increases bag's load capacity, enhancing its suitability for carrying heavier items. Based on their purpose, bags can be supplied individually, blocked or blocked with perforated corner. Similar to our other products, patch handle bags can too be flexo-printed in up to 8 colours. For the highest quality requirements of our clients digital CTP plates are used.

Characteristics:

- reinforced handle with glued-on patch
- bottom gusset for increased volume
- bag types: individual, blocked, blocked with perforated corner
- 8 colours flexo print
- printed gusset
- consistent quality control
- guaranteed traceability

Economical

Eco friendly

Tear resistant

Patch handle bags

Material:	LDPE, MDPE, HDPE
